Newsletter October 2019

Editor's Notes

Well, some would say it is now back to normal or perhaps life post Orchidfest for the members of ROSI . Orchidfest, is now 1 month behind us and despite all the hard work and planning for 3 years it will be remembered for many things; but for most it will be hard to surpass the friendly and happy atmosphere enjoyed by all who took part. Whether it was just admiring the plants and taking in the overall vista of the display enhanced by the beautiful venue or over-spending your budget in the vendor's hall, the likes of this will not be seen again in Rockhampton for many years to come. There were many highlights and I have included some pics from Orchidfest in this Newsletter, but for an overall view, our web master Bob Lakey has published an excellent video of the Show which you can watch on the website.

A stand out feature of the conference was the gala dinner on the Saturday night at which the awards were presented by our patron Rockhampton Regional Councillor Neil Fisher in conjunction with Australian Orchid Council Registrar John Rees. Neil's presence as patron but also representing RRC was very apt as RRC was our major sponsor, and without the council's major grant, Orchidfest may not have been as successful as it was. In President Jeff Bloxson's speech he thanked all who contributed to staging Orchidfest, but also paid tribute to a small dedicated few who worked tirelessly with him and especially in the last 6 months to make it the success it was. Jeff Glover in a latter speech made mention of President Jeff's major effort and tremendous dedication to ensure Orchidfest's success.

Without doubt, it was the platitude that stood out over the weekend, that 'everything was so efficiently run and organized'. This came from many, and from both John Rees who commented we had 'raised the bar' for future Orchidfests and likewise, Les Vickers Queensland AOC Registrar and chair/organiser for the forthcoming Australian Orchid Conference in 2021 at Logan City who said that our conference 'was the model to follow'. One minor hiccup due to computer issues was that the prize list was unavailable to display at the show. However, a full list including the Display points is included in this Newsletter. As you would be aware last month's Newsletter was very brief due to the concurrence of Orchidfest; therefore, this Newsletter also includes last month's competition results and 2 lucky numbers. Can you believe it that its only 10 weeks to Xmas and next month's newsletter will be the last for the year. It will include the Yearly Competition Results and all you need to know for the Society's Xmas Party.

Growers' Tip

This month's tip is to repot now , repot now, repot now ! With the variation of climate, we now have it is imperative that you start your repotting schedule sooner rather than later. I now start in August; whereas once the general rule was to start in September/October. Without getting into the climate change debate, in Rocky we now have more temperatures in the high 30's in September and October. For instance, on the 8th October we had 41 degrees. If you think that's not hot, for us oldies it equates to 105.8 degrees Fahrenheit.

Many of us grow Cattleyas, which is the most commonly cultivated genera. In my experience the longer you leave these to be repoted before the onslaught of the heat the longer they take to re-establish. The traditional potting media of bark and charcoal is not overly moisture retentive and therefore requires more regular watering while growing new roots. Observation can be your best tool; new /emerging roots will die-back if it is too hot and the media is dry, because it too becomes very hot in over 35 degree temps. An interesting concept to circumvent this problem is the advent of the

use of the semi-hydroponic method of cultivation with clay balls that is becoming popular with many growers. Time will tell, how it goes; it may be the potting method of the future; however, don't delay repotting any longer. 67

Treasurer's Report:

Read and moved for acceptance by S Rowcliffe Seconded M Kydd **Carried**

Growers Group Coordinators Report: Marg Handley delivered her report.

General Business:

The President reported that we had very positive reports of the conference from STOCQ representatives.

It was possibly one of the best conferences held on behalf of STOCQ so far.

Special mention was made of the donation of the cost of altering our existing advertising signs to reflect the change of venue and dates. This donation was made on behalf of Lorraine Weaver by her neighbour who is the proprietor of Sargent Signs.

The Rosette for 1st prize in the display section of the conference to be given to Tony March in recognition of the work done by him in constructing the display stand and for all the other preparation he did for the conference.

Moyna Richardson who stewarded for the Floral Art judge said that the judge was very impressed by the quality and number of entries. Much of this was due to the lesson given by Maxine Maunder prior to the conference. The Floral Art certainly created the "Wow" factor at the entrance to the conference.

Plant Commentary: Jeff Glover

Exhibitor's Raffle: J Bloxom who gave his prize to new member M Gillott

General Raffle: J Rawlings x 2, S Kuhl x2, P Bennet x 2, L Andrews x2, K O'Brien x 2, T Breingan x2, J Hogan, B Jenkins x2, G Breingan x2, L Lucke x 2, T Craig, R Bentley.

Next Committee meeting at Korte's Resort on Tuesday 1/10/19 commencing at 7.00pm.

Meeting closed at 8.58pm.

R.O.S.I Growers Group Report. (September)

Please note Change of date - Next Growers Group is Saturday 5 October.

The August Growers Group was held at the residence of John and Jan Hogan at Bouldercombe. 51 members and 2 visitors attended, and we were able to see Jan's orchid collection spread through the 3 orchid houses. Lucky for Jan, John is quite a handy man and accomplished orchid house builder! Jan's oncidiums are doing very well in their special house. Jan has been growing orchids for many years but has had to contend with the added problem of bore water. As usual, the raffle was well supported and the surprise prize was a crab donated by Bob. Thank you to those who donated raffle prizes and many thanks to the Hogan's for inviting us.

The topic for the afternoon was the growing of Tolumnias. Thankfully, the Smiths provided me with some of their mature flowering Tolumnias to show members which added to the flowering one that I had bought recently at the Townsville Orchid Fair.

Our next Growers Group will be at **Sandra and Michael Rowcliffe's residence at 53 Constance Ave Rockyview on Saturday 5 October.** The usual starting time is 2pm. Please bring your hat, folding chair and a plate of food to share. Donations to the raffle table are always welcome.

Margaret Handley

**Next Monthly Meeting Tuesday ^{22nd} October
Starts 7.30pm.**

**Notice to Members: Please assist if you can with cleaning the hall
after the meeting**

General Cultural Guide October/December

<i>* Information is general in nature and given in good faith.</i>	Watering/Weekly	Fertilizer Twice Weekly	Pest/Disease Control	Comments
Cattleya	2-3times weekly	Higher Nitrogen	Inspect for mealy bugs/Fungus control if necessary	Increase watering frequency as temperature rises to maintain humidity. Divide and re-pot mature plants
Dendrobium Hard cane	2-3times weekly	Increase fertilizer containing a higher nitrogen level.	Inspect for mealy bugs and scale /Fungus control if necessary	Increase watering frequency as temperature rises to maintain humidity. Re-pot if overgrowing pot
Dendrobium Softcane	2-3times weekly	Increase fertilizer containing a higher nitrogen level.	Inspect for scale Spray with white oil, Malathion	Remove and pot on Kiekies (plantlets)
Phalaenopsis	1-2 times weekly	Increase fertilizer containing a higher nitrogen level	Use Preventative Fungicide Mancozeb	Increase watering frequency as temperature rises to maintain humidity. Re-pot if overgrowing the pot. Pot up seedlings.
Vandaceous	Water daily in hot weather every 2 nd day if cooler	Increase fertilizer containing a higher nitrogen level	Ants / Scale and Mealy bugs. Inspect material in baskets. Spray with white oil, Malathion	Increase watering to once a day in very hot weather. Maintain humidity when possible.
Oncidium	In hot weather, every 1-2 weekly	Balanced fertilizer.	Fungal leaf-issues as humidity increases.	High nitrogen fertilizers encourage too much leaf growth in Varicosum types
Paphiopedilums	3 times weekly more if in hot weather.	Balanced (Less nitrogen) fertilizer	Preventative Fungicide Mancozeb	Do not let plants dry out in hot weather.
Catasetinae	At least 3 time weekly Increase frequency if new growths are starting	Increase fertilizer containing a higher nitrogen level	Spray Miticide monthly, more often in Hot dry conditions	Maintain a close vigil for Spider mites. These pests can devastate a collection.

Growers Group Reports for August and September.

The August Growers Group was held at the residence of John and Jan Hogan at Bouldercombe. 51 members and 2 visitors attended, and we were able to see Jan's orchid collection spread through the 3 orchid houses. Lucky for Jan, John is quite a handy man and accomplished orchid house builder! Jan's oncidiums are doing very well in their special house. Jan has been growing orchids for many years but has had to contend with the added problem of bore water. As usual, the raffle was well supported and the surprise prize was a live crab donated by Bob. Thank you to those who donated raffle prizes and many thanks to the Hogan's for inviting us.

The topic for the afternoon was the growing of Tolumnias. Thankfully, the Smiths provided me with some of their mature flowering Tolumnias to show members which added to the flowering one that I had bought at the Townsville Orchid Fair.

Our September Growers Group outing was actually held on October 5 at the residence of Sandra and Michael Rowcliffe. 55 members fitted comfortably into Sandra and Michael's spacious patio. We were able to tour Sandra's several orchid houses and see her large collection. Michael has also been the orchid house builder.

President Jeff updated members on aspects of our recent successful Show/Conference.

The Topic for the afternoon was the growing of Vanilla planifolia. Keith Marsden has grown a vanilla vine for ages and he told members how to grow the vines and generously donated a vanilla vine for the raffle. Trevor described how he pollinated the vanilla flowers on our vine and how we ended up with 50 vanilla beans. I then described how our sister in law processed the beans and showed the finished product.

I also referred members to the article in the R.O.S.I newsletter written by Jeff Glover about Phaius tankervilleae. I showed photos of two examples of its progeny - Phcal. Kryptonite and Gp. Lady Ramona Harris. These lovely orchids were exhibited at recent shows. We had 79 draws in the raffle and thanks to all those who donated prizes. Thanks once again to Michael and Sandra for inviting us to their place.

Our last Growers Group for the year will be held on **Saturday 26 OCTOBER**. We have been invited to the residence of **Sue and David Eggleshaw at 8 Sullivan Road at Gracemere** at the usual time of 2pm. Drive south on the highway and turn right towards Mount Morgan onto the Burnett Highway or the A3. Then turn right onto the Gavial - Gracemere Road. Follow along until Sullivan Road appears on the right. Bring the usual- hat, small plate of afternoon tea to share and a folding chair. Donations to the raffle are always welcome.

Look forward to seeing you there.

Margaret Handley
